ON/OFF Switch on handle

VAC SWEEP - an automatic dust pan in your kitchen

## HIDE A HOSE

### SIMPLICITY

No need of storage space for your hose. It automatically stores itself inside the piping system, right behind the inlet, with just the suction power of your central vacuum.

### EFFICIENCY

A hose behind every inlet. Your central vacuum is always within your reach. You can therefore take advantage of its power to clean occasional dry messes in an instant!

### SPEED

No hose to carry from inlet to inlet. The HIDE A HOSE by Donvac is more convenient for quick clean ups than a traditional hose. Pull out just the length of hose you need and make it disappear behind the walls within seconds after your cleaning!

*HIDE A HOSE system is the new revolutionary design to hide a hose in your wall, open the inlet, pull out the hose from the wall and start your vacuuming, when finished release the hose lock and the hose disappears into the wall. IT'S THAT SIMPLE.*

## 10 Years

**WARRANTY FOR VACUUM UNIT COMPONENTS INCLUDING 5 YEARS ON LABOUR**

All parts of your Soluvac power unit are warranted against manufacturing and/or functional defects for ten (10) years, from the original date of purchase at an authorized Donvac dealer. For the first Five (5) full years from the original date of purchase of the vacuum unit, labour costs will be the responsibility of Donvac. At the end of the five (5) years, labour costs will be charged to the owner. See "Conditions and details of the warranty" for normal use conditions covered by this warranty. The ten (10) year warranty is valid for residential use only. The ten (10) year warranty does not apply for any commercial or industrial use.

All warranties are back to base basis.
